Note 1	64 riders finished within the time limit.						
Note 2	Variable gears were permitted for the first time with mixed						
	views on their real worth.	Only G Wells & W Pender					
	claimed that variable gears were	e good.					
	Time alone will prove the real w	orth of variable gears in					
	competitive cycling.						
	What a profound statement. A straight gear has not been						
	used in long distance road races	for decades.
