Note 1 64 riders finished within the time limit.

Note 1 64 riders finished within the time limit. Note 2 Variable gears were permitted for the first time with mixed views on their real worth. Only G Wells & W Pender claimed that variable gears were good. Time alone will prove the real worth of variable gears in competitive cycling. What a profound statement. A straight gear has not been used in long distance road races for decades. ST/Sent 1
